SUPRA MAINS PLUG MC-BS

Hospital and Audio Grade British mains plug for high-end mains power cables. The LoRad plugs are available in a number of versions for the major electrical standards around the world. They accept large cable diameters for the convenience of a number of cable brands and are of course proven to be the best connector for our Supra LoRad mains flex range. The maximal current allowed is according to the standard 13 ampere. The plug provides 24K gold plated pins and cable screw clamps for solid joints with minimal contact degradation. The mains plug accepts cable diameters up to 11 mm and cable lead area up to 2.5 mm².

Conforms to the British Standard valid in UK (United Kingdom) and on Ireland

Note! The connector must be connected to a wall socket with a ground terminal for the full LoRad effect to take place. LoRad connectors are tested and certified by Intertek Sweden, meeting the BS standards.

CONSTRUCTION

Standard:	British standard / BS approved 1363/A
Plug type MC-BS:	Angled male plugs with ground connection
Material:	24K gold plated Copper alloy
Pin connection:	Screw clamp
Cable strain relief:	Screw clamp, Integrated in housing assembly
Insulation:	UV resistant PP
Max wire area:	2.5mm ² / AWG 13
Max cable diameter:	11.5mm
Rated voltage/current:	250V/13A fuse

Easy to assemble, there are no shells or housing parts that must be pre-mounted prior to fixing the cable.

Check how to assemble the plugs on Youtube:
