

SUPRA COMBICON BANANA

Loudspeaker connector Banana

Rev.date: 2022-11-04

Customs tariff no: 8536901000

Country of origin: Taiwan

SUPRA CombiCon Banana

24K Gold or Rhodium plated speaker connector for cable up to 6mm².

Supra CombiCon (Combination Connector) consists of a body and an inter-changeable contact part in two versions. The banana pin with M6 thread got a key grip for best tightening torque. The kit also includes a fork/spade with M6 thread.

The contact body is the part that is mounted on the cable. It is possible to connect straight or alternatively at 90 degrees (perpendicular) to the contact body. Our reinforced banana pin is BFA terminals compatible and features a key grip to tighten the banana against the connector body with a small spanner, a fixed 5 mm U-wrench or even the spade part.

The banana pin fits both CombiCon M6 body and CombiCon M6 Crimp bodies.
